Adapt a pretrained VLA to a new action interface

1 Dense skill acquisition

Progress rewards
Skill-specific starts

2 Binary refinement + SIL

Skill success
0 / 1

Successful trajectory bank

Balance earlier + new skills
Consolidate one policy

3 Full-task composition

1 → 2 → 3 → 4 → 5

Reach Grasp Lift Move Place

One full-task instruction
Milestone credit during RL

Evaluation: empty-gripper start | one policy | strict complete-task success
